Newsbin ( <i>top paid client; \$30 one-time fee</i> )	<a href="http://www.newsbinpro.com/">http://www.newsbinpro.com/</a>	Windows

## Tips for Choosing a Provider

Days of Full Binary Retention	Retention is the number of days you're guaranteed to be able access to a file after its posting date. Mostly, providers offer around 200 days. See if that's enough.
Monthly Transfer	Total amount of data you can download in a month. Usually in GB.
Connections	The number of simultaneous connections you can make at a single time. Usually you are provided with a sufficient amount of connections, regardless of the chosen account type.
Security	If you want to make your data transfer even more secure, you might want to check extra security offers from your provider.
Support	Sometimes you need to contact your provider and it's always better if their support has a decent response time.
Cancellation and Trial Periods	It's always a good idea to try their services without paying anything ahead. Just to check if everything fits your needs.

## Top Usenet Providers

Name	Link	Price
UseNetServer	<a href="http://www.usenetserver.com/partners/">http://www.usenetserver.com/partners/</a>	starting at \$10/month
Newshosting	<a href="http://www.newshosting.com/partners/">http://www.newshosting.com/partners/</a>	starting at \$9.99/month
